

What Is Integrated Consulting?

Integrated consulting

is our answer to client needs ranging from how to scale to complex multistakeholder issues to finding your leadership style to strengthening your community. Through a combination of offerings and utilizing the wide range of Change Agents skills sets, we illuminate histories; consider multiple factors and find alignment; and integrate sustainable solutions for our clients.

1 Illuminate

Our Change Agent approach always starts with a full environmental illumination of our clients. We shed a light on your unique situation by analyzing your organization's opportunities for growth, identifying goals and objectives, and outlining preliminary plans for execution.

2 Multifactor Prioritization

We believe that each client's business is a living, breathing community of people and processes and it is vital to recognize the differing stakeholders, visions and goals at play. Through multifactor prioritization, we consider the variables and find an alignment that is agreeable for all parties.

3 Integrate & Ignite

Sustainable change is our top priority for each client. Through a thoughtful process, we integrate solutions that ignite our clients' vision forward with to create a lasting impact on them and their communities.
